

Country Policy Adoption Scorecards

Afghanistan

Overall country policy adoption

Policy adoption (out of 33)

HIV incidence

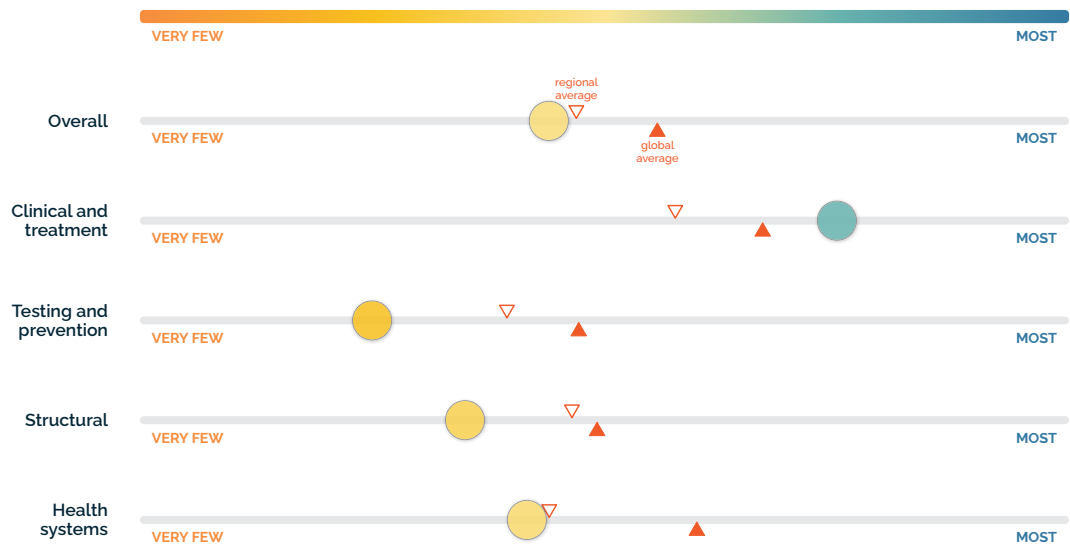

1.50k new HIV infections in 2019 ▲ 50% since 2014

ART treatment

10% of people with HIV on ART in 2019 ▲ increase from 4% in 2014

Does not meet targets for 90/90/90 goals

HS1 Task shifting	Are nurses or other non-physicians allowed to initiate HIV treatment under national policy?			
HS2 Health financing <i>(2-part)</i>	Does the national budget and fiscal policy include sufficient health spending and adequate tax revenues to meet international targets?			
i	Does the percent of government spending going to health align with the Global Fund co-financing targets?			
ii	Does government collect adequate tax revenue to align with the tax:GDP ratio in the Global Fund co-financing targets?			
HS3 Universal health coverage <i>(2-part)</i>	Does national health coverage include medications for HIV treatment & pre-exposure prophylaxis?			
i	Are ARVs covered by the national health system/scheme?			
ii	Is PrEP covered by the national health system/scheme?			
HS4 User fees <i>(2-part)</i>	Are public primary and HIV healthcare services available without user fees at the point of service under national policy?			
i	Are primary healthcare services in public facilities available without user fees?			
ii	Are HIV services in public facilities available without user fees?			
HS5 Access to medicines (TRIPS) <i>(2-part)</i>	Does national law/policy take advantage of TRIPS flexibilities for affordable medicines?			
i	Are TRIPS flexibilities incorporated in national law?			
ii	Are there documented examples of the country utilizing TRIPS flexibilities?			
HS6 Unique identifiers with data protections <i>(2-part)</i>	Are unique identifiers for continuity of care across multiple facilities included in national policy along with protections for patients' privacy?			
i	Is there a unique ID (or other method of de-duplicating data) that allows for continuity of care across multiple facilities?			
ii	Does national law include legally enforceable protections against disclosure of individually-identifiable health data, including HIV status?			
HS7 Data sharing <i>(2-part)</i>	Is it national policy to publicly share disaggregated HIV data on a regular basis?			
i	Is data disaggregated by geographic region, age, and gender?			
ii	Is data shared at least quarterly?			

Overall country policy adoption

VERY FEW FEW SOME **MANY** MOST

Policy adoption (out of 33)

19 Adopted **6** Partial **8** Not adopted **0** Data not available

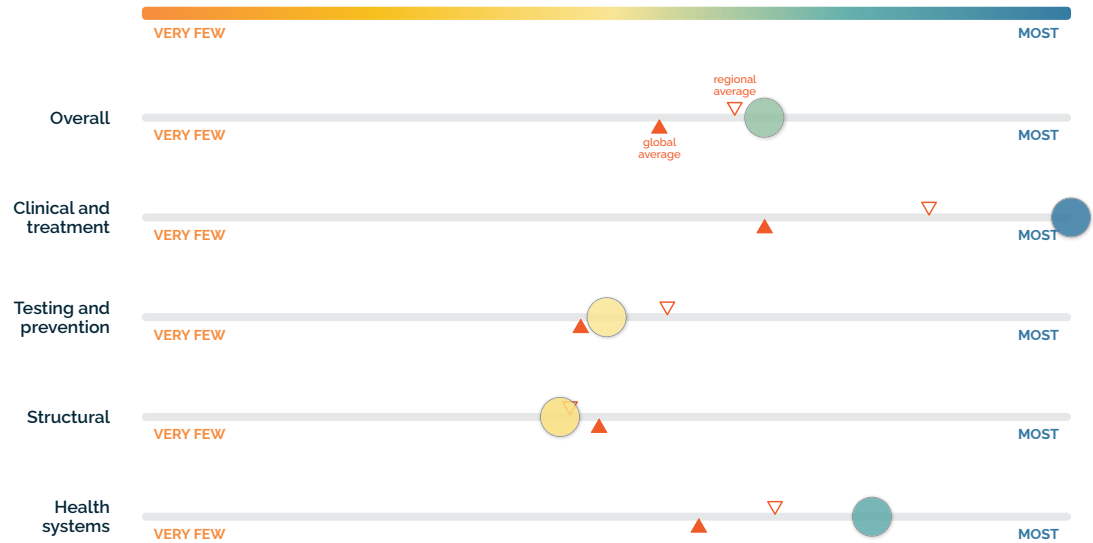

HIV incidence

40.00k new HIV infections in 2019 ▼ 23% since 2014

ART treatment

85% of people with HIV on ART in 2019 ▲ increase from 59% in 2014
Meets targets for 90/90/90 goals
